

FRONT FRAMELESS DESIGN

「 Full Screen ^{PV MODULE} 」

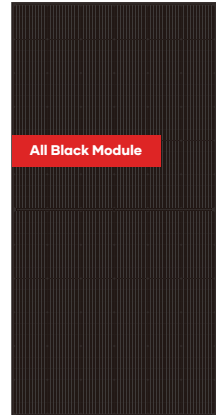

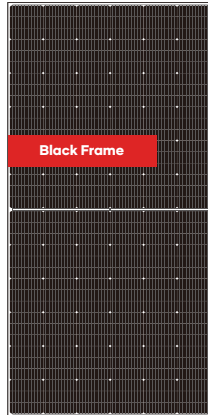

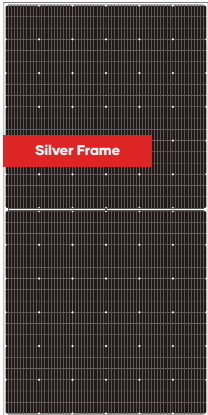

NO RESIDUE OF WATER AND DUST

DAH Solar Innovation-Global Patented Product
 Powerful self-cleaning ability, power generation can be increased by 6.15%* compared with regular module.
 This full screen technical is suitable for all DAH solar module.

COMPREHENSIVE PRODUCTS AND SYSTEM CERTIFICATES

IEC 61215 / IEC 61730 / CE / INMETRO
 ISO 45001:
 2018/International standards for occupational health & safety
 ISO 14001:
 2015/Standards for environmental management system
 ISO 9001:
 2015/Quality management system

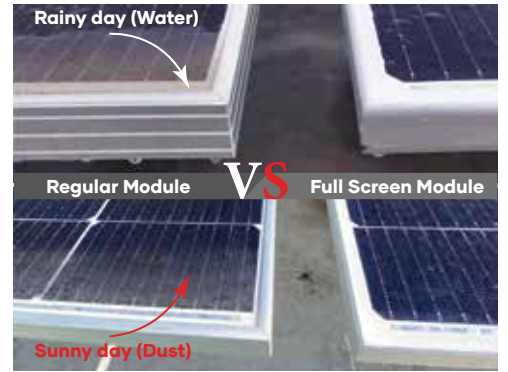

Three appearances for choosing, suitable for different installation scenarios

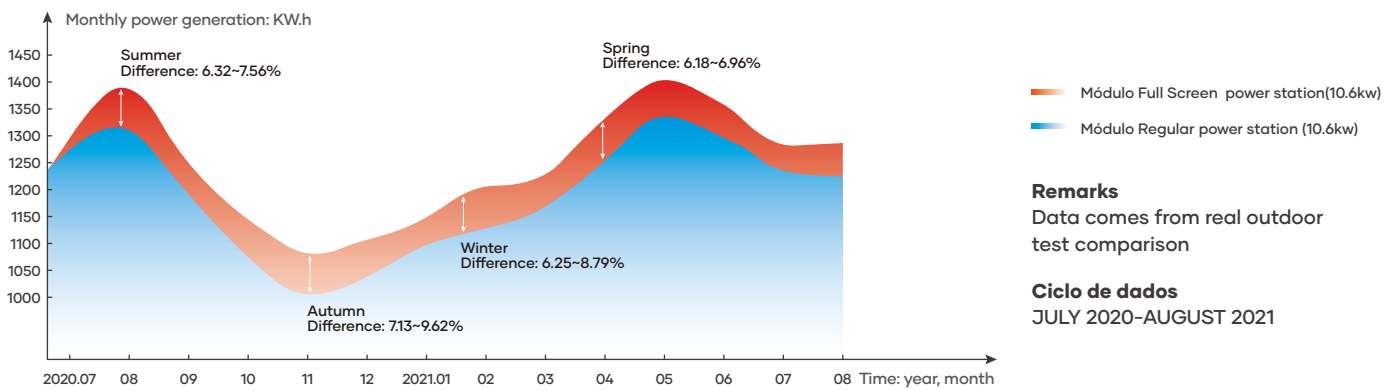

FULL SCREEN PV MODULE

Why choose full screen Module ?

- Front frameless design, No residue of water and dust
- Reduce manual operation and maintenance costs
- Powerful self-cleaning ability, Reduce the risk of hot spots
- Innovative curved frame design to optimize installation and handling experience

Regular Module VS Full Screen Module Comparison of actual power generation data

Power generation gain rate and reliability have passed TÜV authoritative certification

Waterproof Level
IP68

Load Capacity
Front 5400Pa Back 2400Pa

Process Warranty
12-year material & technology warranty

Power warranty
25-year linear power output warranty

Installation method Only paste anti-slip mat on the regular clamps

(EPDM anti-slip mat comes with the Module)
